GRAD-E1326: PYTHON PROGRAMMING FOR DATA SCIENTISTS

MIDTERM REPORT

github.com/vladsurdea/Python2020

CONTENTS

FALLING SKIES
DEMO

We developed a functional demo that implements the necessary code.

We still have to update the graphics and to add new levels.

TRIVIA

DEMO

We developed a functional demo that implements the necessary code.

We still have to update the graphics and to add new levels.

TEXT-BASED ADVENTURE

DEMO

We developed a complete story on which the game is based, as well as writing partially the code needed for the game

We still have to update the graphics and to write the final parts of the code.

NARRATIVE STRUCTURE

We have written a completely new story set in the Twin Peaks universe that will be used after all the mini-games have been finished.

We developed a chart that will allow us to write the code that translate the story into a new text-based game.
